

Appl. No 09/944,491

Amendment dated September 16, 2004

Reply to Office Action dated September 8, 2004

Amendment to Abstract

A computer mouse is designed to be worn on the hand of a computer user for use in conjunction with various types of computer systems. A base attaches to the user's hand through the use of flexible adjustment straps. The base houses the electronic and/or computer circuitry needed for developing and transmitting electrical signals to the user's computer system, the signals corresponding to the signals on a conventional mouse.
